

Conferences and symposiums

Communication about PPSM projects and seminars from invited speakers

2024

Seminar of Dr Jonathan Piard

PPSM "Teaching-Research nexus" axis: initial thoughts on scientific leadership

2023

Seminar of Dr Chris Ritchie

Stimuli-Responsive Polyoxometalate Containing Molecules and Materials

Seminar of Dr Jérémy Bell

Microfluidic based sensors for biomarkers

Seminar of Ida Fazlic

Historical and industrial paints under the synchrotron light

Seminar of Pr Norihisa Kobayashi

Upconverted emission in AC-driven electrochemiluminescent device with DNA modified electrodes

Seminar of Dr Tomoko Inose

Plasmonic nanowire for single live-cell investigation

Seminar of Dr. Victor Gonzalez

Chemistry of pictorial matter: connecting molecular mechanisms and macro-scale properties

2022

Seminar of Prof. Dr. R.G. (Rob) Erdmann

University of Amsterdam and the Rijksmuseum

Seminar: Yuna Kim

Faculty of Engineering, Utsunomiya University, Japan

Seminar: Yuichi Hirai

National Institute for Materials Science, Tsukuba, Japan

Mid-thesis seminar: Enzo Dalloz

Direction: Gilles Clavier

Mid-thesis seminar: Margarita Bosmi

Direction: Fabien Miomandre

Mid-thesis seminar: Aurélie Djian

Direction: Rémi Métivier, Joanne Xie, Guillaume Laurent and Keitaro Nakatani

Seminar: Jean-Charles Ribierre

Coming from: Service de Physique de l'État Condensé, CEA CNRS UMR 3680, Université Paris Saclay, CEA Saclay
